JET COMMUTER BUILT FOR ARTIST ANDREW WYETH

JERRY BOGERT'S *JAMBO* REALLY FLIES WITH
HER TWIN JETS

PATRICK WILMERDING'S *DUCK SOUP* USES A SINGLE CONVENTIONAL ENGINE AND
PROPELLER

This sporty speedster has been turning heads for two summers on the midcoast of Maine. Think folks are looking for a fast and very pretty alternative to that other famous jetboat? How's about four boats sold since she was launched! You can still get yours, though, with a choice of single or twin jets, or conventional power, in time to push the throttles to the stops before the end of the season in 2005. These boats are what we call in Maine, WICKED FUN!
