AUJOURD'HUI - The third boat of the 38 foot series behind ANNIE ROSE and MAESTRO. We have extended the transom to give her a very dramatic torpedo look. Her twin 435 hp Cummins give her the ability to cover a lot of fast miles. She is our first boat to utilize Blue Arrow technology that allows "mouse" control while docking. She will has a full on mahogany interior with a custom etched glass bulkhead. A true showstopper!

LOOKING FORWARD FROM THE BRIDGE

HER ETCHED GLASS BULKHEAD ADDS A TOUCH OF CLASS

SHE REALLY GOES!
