THE LYMAN MORSE 40 IS AN ADAPTATION OF THE EARLIER 38 FOOTERS, WITH A REVISED PROFILE AND EXTENDED STERN.

The Lyman Morse 40 is a stylish twin jet cruiser available on a semi custom basis from this famous Thomaston, Maine builder. Two predecessors have been built at 38 feet. *ANNIE ROSE* is the first of these and the photos below show the exquisite quality of build, both interior and exterior, that are the norm at Lyman Morse Boatbuilding.

The first Lyman Morse 40 will be powered with two jets for a top speed of 31 knots and cruise at 28 knots. You are encouraged to work closely with Paine Yacht Design and the design team at Lyman- Morse to achieve the interior and deck layout that most pleases you- the Lyman Morse 40 is a fully custom yacht and no limits are placed on your requirements.

Your further inquiry is enthusiastically invited.
